**PUBLICATION OFFICE:** Prince & Lemon Sts., Lancaster, Pa.

****EDITORIAL OFFICE:** Washington, D. C. **P.O. ADDRESS:** Box 1736, Washington 13, D. C. Telephone LIncoln 6–6734

**ADMINISTRATIVE OFFICE:** **American Meteorological Society,** Office of Executive Secretary, 45 Beacon Street, Boston 8, Mass.

Address all business communications, orders and inquiries to the Executive Secretary, Mr. Kenneth C. Spengler, 45 Beacon Street, Boston 8, Mass. Exchanges and reprints may be sent direct to P. O. Box 1736, Washington 13, D. C.

**METEOROLOGICAL AND GEOASTROPHYSICAL ABSTRACTS** is a monthly publication devoted to:

A. Current Abstracts in English on important meteorological and geoastrophysical literature in every language.

B. Bibliographic references to other items of interest to the profession.

C. Selective, annotated bibliographies on subjects of immediate and special interest to meteorologists, geophysicists and astrophysicists.

**SUBSCRIPTION RATE:** $90.00. Special rate for university and U. S. Public libraries, $50.00. $20.00 per year to AMS members. Prices for single copies, $10.00 ($5.00 to members). Back volumes, $40.00 ($20.00 to members). Vols. 1–10, complete, $200 ($100 to members). Second class postage paid at Lancaster, Pa.

# ERRATA—VOLUME 14, 1963

**Note:** In the following list only more important errors are included. Discrepancies in style, punctuation, accents, capitalization, subject headings, etc., are not, as a rule, listed; nor are errors in the monthly indexes of each issue where these errors are corrected in this volume index. Errors of fact which have come to our attention, mistakes in spelling of the names of authors, and errors in title, journal entries or pagination are included. Any errors which have been overlooked should be called to our attention (by post card, addressed to: **Meteorological and Geoastrophysical Abstracts,** Box 1736, Washington, D. C. 20013).

# CUMULATIVE AUTHOR INDEX

## Vol. 14, No. 1–12, Jan.–Dec. 1963

**Note:** In this index, author entries are arranged alphabetically, and under each author, the titles are likewise arranged alphabetically by the first word of the title.

Authors and titles mentioned in the body of an abstract have also been indexed. References to authors and titles found in Part III (Reviews, Recent Monographs, Translations, and Contents of Journals) are included in the index.

Authors whose names begin with an article or preposition (van, de, di, le, la, etc.) are generally indexed under that article or preposition. Cross references indicate variations from that practice, or possible alternate entries.

Titles have been shortened by eliminating articles and by omitting the end of long titles where feasible.

All titles are listed under the first author. Co-authors, if any, are mentioned after the title. This simplifies arrangement of titles under any given author.

**A**

**anensen, C. J. M.**
- Gale of February 16, 1962, in the West Riding of Yorkshire (*with* **Sawyer, J. S.**), 14.11–736

**nger, B.,** *see* **Stoffregen, W.,** 14.11–702

**ngström, Anders**
- Absorption of solar radiation by atmospheric water vapor, p. 589
- Atmospheric turbidity, global illumination and planetary albedo of the Earth, p. 981
- On the evaluation of natural illumination from radiometric measurements of solar radiation (*with* **Drummond, A. J.**), p. 588

**arons, A.**
- Phase distortion of acoustic pulses obliquely reflected from a medium of higher sound velocity (*with* **Yennie, D.**) [Russ. transl.], 14D–158

**arons, Jules**
- Atmospheric phenomena noted in simultaneous observations of 1958 $\alpha2$ (Sputnik III) (*with* **Whitney, H. E.** et al.), 14.11–236
- Cygnus rise and set measurements at v.h.f. and u.h.f. radio frequencies (*with* **Castelli, J. P.** and **Kidd, W.**), p. 2997
- Geomagnetic control of satellite scintillations, p. 3024
- Geomagnetic control of satellite scintillations (*with* **Mullen, J.** and **Basu, Sunanda**), p. 2305
- Radio astronomy measurements at VHF and and microwaves (*with* **Barron, W. R.** and **Castelli, J. P.**), 14G–2

**bal'ian, T. S.**
- Prognoz mesiachnogo stoka rek Sredneĭ Azii, 14.4–442

**Abbot, Charles Greeley**
- Important interferences with normals in weather records, associated with sunspot frequency, 14.9–200

# CUMULATIVE TRANSLATIONS INDEX

### Vol. 14, Nos. 1–12, Jan.–Dec. 1963

**Abeleva, E. A.**
  Crossing over in Drosophila melanogaster males caused by cosmic-flight factors (*with* **Parfenov, G. P.** and **Lapkin, Iu. A.**) [Transl. from Russ.], p. 3350
**Adam, N. V.**
  Annual variations of H, D and Z and determination of the mean annual values of the magnetic elements on the basis of single-month observations in the high latitudes (*with* **Orlov, V. P.**) [Transl. from Russ.], p. 2301
  Annual variations of the magnetic field in the USSR during the period 1948–1959 (*with* **Orlov, V. P.**) [Transl. from Russ.], p. 2301
**Afanas'eva, V. I.**
  Corpuscular nature of day-to-day variability of quiet solar diurnal geomagnetic variations [Transl. from Russ.], p. 2301
  Families of geomagnetic storms and solar corpuscular streams [Transl. from Russ.], p. 1316
**Afonina, R. G.**
  Difference between magnetic storms having sudden and gradual commencements [Transl. from Russ.], p. 1317
  Geomagnetic manifestations of the asymmetry between the Sun's hemispheres [Transl. from Russ.], p. 1317
  Review of geomagnetic activity in 1952–1959 and some differences between sudden-commencement and gradual-commencement magnetic storms [Transl. from Russ.], p. 1988
**Agureev, S. P.**
  Portable damping water level indicator [Transl. from Russ.], 14E–147
**Aĭzenshtat, B. A.**
  Heat balance and microclimate of certain landscapes in a sandy desert [Transl. from Russ. by G. S. Mitchell], 14.2–696
**Akademiia Nauk SSSR**
  [Obituary of] Iuriĭ Nikolaevich Godin, May 23, 1912–Jan. 1, 1962 [Transl. from Russ.], p. 245
  Soviet geography: accomplishments and tasks. A symposium of 50 chapters contributed by 56 leading Soviet Geographers [Transl. from Russ. by L. Ecker], 14.11–10
**Akademiia Nauk SSSR. Mezhduvedomstvennyĭ Komitet po Provedeniiu Mezhdunarodnogo Geofizicheskogo Goda**
  International Geophysical Year Bibliograp
  of literature in the Russian language f
  1958 [Transl. from Russ.], 14.7–73
**Akin'ian, S. T.**
  Some characteristics of type IV radio burs
  in connection with the conditions for ge
  eration of a corpuscular stream havi
  geomagnetic effects (*with* **Magilevskiĭ,**
  **I.**) [Transl. from Russ.], p. 1317
**Aksenov, E. P.**
  Generalized problem of motion about t
  fixed centers and its application to t
  theory of artificial Earth satellites (*wi*
  **Grebenikov, E. A.** and **Demin, V. G**
  [Transl. from Russ.], p. 3737
**Aleksandrova, V. D.**
  Seasonal dynamics of Arctic plant comm
  nities [Transl. from Russ.], p. 264
**Alekseev, A. S.**
  Some converse problems in wave propagati
  theory, pt. 1–2 [Transl. from Russ.],
  1980, 1981
**Alekseev, Iu. I.**
  Observations of the solar radio emission
  meter wavelengths during the total sol
  eclipse of Feb. 15, 1961 (*with other*
  [Transl. from Russ.], p. 1340
**Alekseev, V. M.**
  Example of "exchange" in the three-bo
  problem with a negative energy consta
  [Transl. from Russ.], p. 2318
**Alekseeva, K. I.**
  Studies of the composition of primary cosm
  radiation at an altitude of 320 km (*wi*
  *others*) [Transl. from Russ.], p. 2613
**Alekseeva, O. G.**
  State of certain natural immunity factors
  dogs during cosmic flights [Transl. fro
  Russ.], p. 2613
**Al'perovich, L. V.**
  Some results of studies of short-period puls
  tions of the Earth's electromagnetic field
  the time of auroras [Transl. from Russ.
  p. 2301
**Al'pert, Ia. L.**
  Radio wave propagation and the ionosphe
  [Transl. from Russ.], 14.11–11
  Results of research on the outer region of t
  ionosphere, from observations of the rad
  signals of Sputnik I (*with* **Chudesenk**
  **E. F.** and **Shapiro, B. S.**) [Transl. fro
  Russ. by E. R. Hope], 14.11–238

Scattering of electromagnetic waves in disturbances caused by a rapidly moving body in plasma (*with* **Pitaevskiĭ, L. P.**) [Transl. from Russ.], p. 2623
Study of the ionosphere and interplanetary gas by means of artificial Earth satellites and space rockets [Transl. from Russ.], 14.11–237

**nbartsumian, V. A.**
Degenerate superdense gas of elementary particles (*with* **Saakian, G. S.**) [Transl. from Russ.], 14.11–278
Internal structure of hyperon configurations of stellar masses (*with* **Saakian, G. S.**) [Transl. from Russ.], 14.1–75
On the equilibrium configurations of superdense degenerate gas (*with* **Saakian, G. S.**) [Transl. from Russ.], 14.1–74

**apol'skaia, L. E.**
Method of determining rated wind velocities in application of wind loads to structures (*with* **Gandin, L. S.**) [Transl. from Russ. by J. Miller], 14.6–115

**ishchenko, G. N.**
Magnetotelluric investigations in Central Turkmenistan (*with others*) [Transl. from Russ.], p. 1981

**tonov, S. N.**
Photographic processes used in the first photographs of the other side of the Moon (*with others*) [Transl. from Russ.], p. 589

**tonova, L. A.**
Corpuscular hypothesis for the ionization of the night ionosphere (*with* **Ivanov-Kholodnyĭ, G. S.**) [Transl. from Russ.], p. 1317

**tsilevich, M. G.**
Geomagnetic field variations on August 9, 10, 24, 25 and September 1, 2, 1959, and March 11, 1960 [Transl. from Russ.], p. 1987

**khangel'skaia, V. M.**
Comprehensive seminar of the Seismology and the Seismic Service, Institute of Geophysics, Academy of Sciences, U.S.S.R., on the study of surface waves [Transl. from Russ.], 14.6–327
Conference on the study of surface waves [Transl. from Russ.], p. 938
Session of the Council on Seismology and the Learned Council of the Institute of Physics of the Earth at the Academy of Sciences of the U.S.S.R. in connection with the 100th birthday of the founder of seismology, B. B. Golitsyn, dedicated to the study of the Earth's internal structure by means of seismic data [Transl. from Russ.], 14.6–324

**khangel'skiĭ, V. T.**
Experimental observations of long period seismic waves at the Simferopol station (*with* **Kirnos, D. P.; Popov, I. I.** et al.) [Transl. from Russ.], 14.12–120

**Arkhipova, V. P.**
Emission star HD 51585 [Transl. from Russ.], 14.6–226
Spectrophotometry of AG Pegasi (*with* **Dokuchaeva, O. D.**) [Transl. from Russ.], p. 1340

**Armand, A. D.**
Transport and deposition in the beds of semimountain rivers in the Viluyi Basin, and their significance in the search for placer mineral deposits [Transl. from Russ.], p. 979

**Arrago, L. R.**
Propagation of heavy impurities in the atmosphere when the wind varies with height [Transl. from Russ.], p. 3712

**Arsen'eva, M. A.**
Changes in hemopoietic organs of mice due to flight in a satellite-spaceship (*with others*) [Transl. from Russ.], p. 590

**Artem'ev, M. E.**
Gravitational anomalies and seismicity of Western Europe and the Mediterranean [Transl. from Russ.], p. 2296

**Artiukhina, N. M.**
Proper motion of the star BD + 40° 4124 associated with nebula S 213 [Transl. from Russ.], p. 980
Stellar density distribution of the M67 cluster (*with* **Kholopov, P. N.**) [Transl. from Russ.], 14.6–219

**Astapovich, I. S.**
On the atmospheric nature of the zodiacal light [Transl. from Russ. by E. R. Hope], 14.3–3

**Astrakhantsev, G. V.**
Relation between the specific inductive capacitance and the polarization capacity of rocks [Transl. from Russ.], p. 1982

**Aver'ianov, I. P.**
Measurement from a high geophysical automatic station of the Earth's thermal radiation into cosmic space at the time of the total eclipse of the Sun on February 15, 1961 (*with others*) [Transl. from Russ.], p. 3363

**Aver'ianova, V. N.**
Comparison of experimental data obtained during three Kamchatka earthquakes with existing power models of foci [Transl. from Russ.], 14.8–255

**Avsiuk, A. G.**
Present state of knowledge of the Arctic Glaciers in the U.S.S.R. [Transl. from Russ.], p. 979

**Azarkovich, E. Sh.**
On the annual runoff norm and its variability in small rivers (*with* **Leĭvikov, M. L.**) [Transl. from Russ.], p. 2638
On the regime of water level fluctuations in lakes of the Upper Volga Basin (*with* **Leivikov, M. L.**) [Transl. from Russ.], p. 2005

**Babetski, Ia. S.**
- Investigation of large ionization bursts produced by cosmic ray particles at sea level (*with* **Buia, Z. A.; Grigorov, N. L.** et al.) [Transl. from Russ.], 14J–8

**Badinov, I. Ia.**
- Three-stage photoelectric transistor tracking system [Transl. from Russ.], p. 3734

**Bagariatskiĭ, B. A.**
- Discussion on the results of photoelectric measurements of the continuum of night airglow [Transl. from Russ.], 14.7–199
- Radar echoes from aurorae [Transl. from Russ.], 14.3–224

**Bagin, V. I.**
- Possibility of developing an alternating field method for determining the ferromagnetic composition of rocks [Transl. from Russ.], p. 1981

**Balabanova, V. N.**
- Determination of the water content of clouds with a filter technique [Transl. from Russ.], 14.6–761
- Disperseness of silver iodide aerosol (*with* **Zhigalovskaia, T. N.**) [Transl. from Russ.], 14A–9
- On the capability of certain substances to crystallize supercooled fog [Transl. from Russ.], p. 4021
- On the use of silver iodide in the crystallization of super-cooled water (*with* **Zhigalovskaia, T. N.**) [Transl. from Russ.], p. 1301

**Balaev, L. G.**
- Experimental results of the study of water evaporation from the surface of capillary meniscus [Transl. from Russ.], 14.10–440

**Balakina, L. M.**
- Changes in the elastic properties and density of matter at the margin of the Earth's core (*with* **Vvedenskaia, A. V.**) [Transl. from Russ.], 14.9–338
- General regularities in the directions of the principal stresses effective in the earthquake foci of the seismic belt of the Pacific Ocean [Transl. from Russ.], p. 1980

**Barabashov, N. P.**
- Microstructure of the lunar surface (*with* **Garazha, V. I.**) [Transl. from Russ.], 14.5–196
- Structure of the surface of the Moon and the study of the first photographs of its other side [Transl. from Russ.], p. 590

**Baranov, A. M.**
- High level clouds over European U.S.S.R. [Transl. from Russ.], 14.2–662

**Barekian, A. Sh.**
- Discharge of channel forming sediments and elements of sand waves [Transl. from Russ.], p. 2638

**Barkhatova, K. A.**
- Study of the open cluster NGC 1605 (*with* **Chentsov, E. L.**) [Transl. from Russ.], 14.7–173

**Barsukov, O. M.**
- Certain characteristics of telluric curr variations with a period of 5 to 20 r [Transl. from Russ.], 14.9–318

**Bartels, J.**
- Geophysical lunar almanach (*with* **Fanse G.**) [Transl. from Ger.], 14L–85

**Batrakov, Iu. V.**
- Perturbations in the orbits of artificial sa lites caused by air resistance (*with* **Pr kurin, V. F.**) [Transl. from Russ.], 2612

**Beletskiĭ, V. V.**
- Libration of a satellite [Transl. from Rus p. 2612
- Orbit of an equatorial Earth satellite [Tra from Russ.], p. 2635 ; 3349

**Belevich, V. F.**
- Retardation of stellar rotation [Transl. f Russ.], p. 2005

**Beliaev, G. M.**
- Quantitative distribution of the bottom fa in the northern half of the Indian Oc (*with* **Vinogradova, N. G.**) [Transl. f Russ.], p. 584

**Beliaev, V. I.**
- Equations of water drop systems suspen in the air [Transl. from Russ.], 14A–2
- Possibility of influencing the weather by tificial cloud dissipation (*with* **Pavl I. S.**) [Transl. from Russ.], 14A–23
- Size distribution of drops in a cloud du its condensation stage of developm [Transl. from Russ.], 14A–20
- Spreading of crystallization in supercoo clouds seeded with dry ice (*with* **Gaĭvor skiĭ, I. I.; Kolesnikov, A. G.** et [Transl. from Russ.], 14A–21

**Belianskiĭ, V. B.**
- Investigations into the properties of atm pherics at ultralow frequencies (below Kc/s) (*with* **Mikhailova, G. A.**), [Tra from Russ.], p. 1988

**Belousov, S. L.**
- Forecasting the geopotential in the upper mosphere (*with* **Boldyrev, V. G.**) [Tra from Russ. by H. K. Gold], 14F–7

**Belousov, V. G.**
- Experimental investigation of the record of deep reflected waves (*with othe* [Transl. from Russ.], p. 583

**Belov, P. N.**
- Numerical forecasting of pressure at vari levels taking into consideration the va bility of the Coriolis parameter and scale of the weather chart [Transl. f Russ.], 14.4–523

**Ben'kova, N. P.**
- Analytical representation of the geomagn field over the territory of the Soviet Un for the 1958 epoch (*with* **Tiurmina, O.**) [Transl. from Russ.], p. 1316

Diurnal variations of blackout occurrence according to IGY data (*with* **Iudovich, L. A.**) [Transl. from Russ.], p. 2623
Ionospheric disturbances of November 10–17, 1960 (*with* **Fligel', M. D.**) [Transl. from Russ.], p. 2623
Ionospheric disturbances of 10–18 July 1959, from observations of Soviet ionospheric stations (*with* **Bonchkovskaia, Iu. S.** and **Shashun'kina, V. M.**) [Transl. from Russ.], p. 1987
Ionospheric investigations in the USSR [Transl. from Russ.], p. 1316
28 Mc/s radio burst of July 12, 1961 (*with* **Turbin, R. I.** and **Fligel', M. D.**) [Transl. from Russ.], p. 2623

**rdyshev, V. D.**
Water permeability calculation of grounds on the basis of vacuum capilarometric determinations [Transl. from Russ.], 14.9–554

**rezin, Iu. V.**
Apparatus for ionospheric study at three frequencies [Transl. from Russ.], p. 2301

**rezinskiĭ, V. S.**
Calculation of the polarization of low energy cosmic ray muons (*with* **Dolgoshein, B.**) [Transl. from Russ.], 14K–17
Polarization of high energy cosmic ray $\mu$-mesons [Transl. from Russ.], 14K–16
Transverse polarization of cosmic ray $\mu$-mesons [Transl. from Russ.], 14K–15

**rg, M. A.**
Emission of the hydroxyl bands and of the (0, 1) $\lambda$ 8645 Å atmospheric band of oxygen in the nightglow (*with* **Shefov, N. N.**) [Transl. from Russ.], p. 2315

**sprozvannaia, A. S.**
Connection of F2 layer disturbance with planetary magnetic activity [Transl. from Russ.], 14.10–160
Spatial variability of F2 layer disturbance [Transl. from Russ.], 14.10–159

# CUMULATIVE GEOGRAPHIC INDEX

In this index of geographical places there are three major sections:

**A. Hemispheres and Regions**
**B. Continents**
**C. Oceans, Seas and Islands (including Antarctic and Arctic)**

An alphabetical or dictionary type of arrangement is followed for all divisions and subdivisions of these major groups. For example, in Section B, the continents are arranged alphabetically as follows:

1. **Africa**
2. **Asia**
3. **Australasia** (Australia, Indonesia and New Zealand)
4. **Europe**
5. **North America**
6. **South America**

Within each continent the regions or main topographical features are listed alphabetically, followed by the countries in alphabetical order. No attempt has been made to distinguish between political and geographical regions or sub-regions.

Within each country all regions, states, provinces, cities or other geographical features falling entirely within that country form a single alphabetical list, except in Australia, Canada, the Union of Soviet Socialist Republics and the United States where cities are alphabetized under their respective states or provinces.

In Section C the principal oceans and seas and their respective divisions have been arranged alphabetically. Islands not naturally associated with one or another of the continents have been assigned to the body of water in which they are located. Seas which fall entirely within one continent have been assigned to that continent with the exception of Section F, Oceanography, in Part I of each monthly issue and the special bibliographies on oceanography, 14D and 14E. In the latter, islands as well as bodies of water have been arranged under the respective ocean in which they are located. Thus islands and seas will be found under both: **B. Continents** as well as **C. Oceans, Seas and Islands** with no individual cross-references indicated.

**Australasia** includes **Australia**, the **East Indies** and **New Zealand; Japan** and the **Philippines** are under **Asia**, and **Greenland** under **North America.**

The Antarctic Regions include the Antarctic continent and the bordering seas. It has been arbitrarily assigned to Section **C** on **Oceans, Seas and Islands** to preserve its analogy to the **Arctic.**

All references to the whole of the **U.S.S.R.** (Russia) will be found in the section under Europe. Places definitely in **Asiatic U.S.S.R.** (Siberia, Kazakhstan, etc.) will be listed under the appropriate country or area under **Asia.** Some of the latter may be also listed under **U.S.S.R.** in the European sections.

All references to the whole of **Germany** (pre-World War II Germany) and references to places overlapping the boundary between East and West Germany will be found under **Germany** (general and undetermined). References to places within the Federal Republic and within the Democratic Republic will be listed under these two headings, respectively.

## A. HEMISPHERES AND REGIONS

WORLD, 14.10–33

EASTERN HEMISPHERE, 14.3–568

NORTHERN HEMISPHERE, 14.1–18, 14.1–300, 14.3–14, 14.3–27, 14.3–536, 14.3–599, 14.3–653, 14.4–572, 14.4–576, 14.5–623, 14.7–545, 14.7–750, 14.7–754, 14.8–291, 14.8–590, 14.8–606, 14.8–610, 14.8–699, 14.9–15, 14.9–20, 14.9–217, 14.9–297, 14.9–333, 14.9–605, 14.9–756, 14.10–528, 14.10–579, 14.10–590, 14.10–616, 14.10–659, 14.10–661, 14.11–553, 14.11–620, 14.11–656, 14.11–669, 14.11–767, 14F–73, 14F–120, 14F–144, 14L–274

Southern Hemisphere, 14.2–185, 14.2–503, 14.3–653, 14.5–652, 14.6–725, 14.7–545, 14.8–189, 14.8–190, 14.8–210, 14.8–291, 14.11–169, 14.12–443, 14.12–444, 14.12–484, 14C–81, 14C–221, 14L–262
Alpine Regions, 14.8–709
Eurasia, 14.3–695, 14.6–691, 14.7–745, 14.10–660, 14.11–620, 14.12–486
Latin America, 14.5–685, 14.10–209
Polar Regions, 14.1–28,
14.2–360, 14.4–222, 1
282, 14.9–804, 14.10–
Tropics, 14.1–307, 14.1–
14.1–417, 14.2–634, 14
584, 14.4–197, 14.8–

## C. OCEANS, SEAS AND ISLANDS

### (including)

### (ANTARCTIC AND ARCTIC)

- WORLD OCEAN, 14.6–434
  - **Antarctic Regions,** 14.2–398, 14D–119
    - Antarctic Ocean, 14.1–159, 14.1–175, 14.1–221, 14.2–282, 14.2–283, 14.2–284, 14.2–298, 14.3–322, 14.3–384, 14.3–385, 14.3–389, 14.3–390, 14.4–371, 14.4–381, 14.5–42, 14.5–45, 14.6–441, 14.6–447, 14.7–324, 14.7–328, 14.8–342, 14.8–346, 14.8–432, 14.8–435, 14.9–404, 14.9–406, 14.10–255, 14.10–673, 14.11–323, 14.11–346, 14.11–353, 14.12–162
      - Drake Passage, 14.1–175, 14.10–719
    - Antarctic Seas
      - Davis Sea, 14.10–587
      - Ross Sea, 14.11–313
      - Weddell Sea, 14.10–218
    - Antarctica, 14.1–14, 14.1–24, 14.1–198, 14.1–199, 14.1–228, 14.2–32, 14.2–37, 14.2–59, 14.2–60, 14.2–62, 14.2–63, 14.2–66, 14.2–67, 14.2–72, 14.2–204, 14.2–356, 14.2–357, 14.2–359, 14.2–363, 14.2–546, 14.2–671, 14.3–46, 14.3–47, 14.3–48, 14.3–49, 14.3–50, 14.3–51, 14.3–52, 14.3–53, 14.3–55, 14.3–57, 14.3–58, 14.3–59, 14.3–60, 14.3–61, 14.3–62, 14.3–63, 14.3–64, 14.3–65, 14.3–67, 14.3–68, 14.3–69, 14.3–70, 14.3–249, 14.3–540, 14.3–606, 14.4–43, 14.4–44, 14.4–46, 14.4–47, 14.4–48, 14.4–50, 14.4–280, 14.4–562, 14.5–37, 14.5–39,

14.5–40, 14.5–41, 14.5–43, 14.5–44, 14.5–46, 14.5–47, 14.5–293, 14.5–341, 14.5–421, 14.5–428, 14.5–541, 14.5–546, 14.5–547, 14.5–719, 14.6–59, 14.6–60, 14.6–61, 14.6–62, 14.6–64, 14.6–65, 14.6–66, 14.6–269, 14.6–524, 14.6–525, 14.7–29, 14.7–376, 14.7–387, 14.8–29, 14.8–51, 14.8–52, 14.8–53, 14.8–54, 14.8–55, 14.8–191, 14.8–199, 14.8–200, 14.8–213, 14.8–546, 14.8–594, 14.8–601, 14.8–665, 14.9–42, 14.9–46, 14.9–47, 14.9–48, 14.9–49, 14.9–52, 14.9–54, 14.9–314, 14.9–452, 14.9–453, 14.9–456, 14.9–744, 14.9–811, 14.10–41, 14.10–45, 14.10–46, 14.10–48, 14.10–50, 14.10–87, 14.10–296, 14.10–298, 14.10–300, 14.11–196, 14.11–209, 14.11–426, 14.11–427, 14.11–433, 14.11–619, 14.11–709, 14.12–73, 14.12–112, 14.12–231, 14.12–453, 14C–273

Adélie Land, 14.1–229, 14.4–402, 14.5–221, 14.7–48, 14.8–331
  Adélie Land Coast, 14.8–56
  Dumont d'Urville, 14.1–32, 14.8–323, 14.11–218
Amundsen Scott Station, 14.2–45
Astrolabe Glacier, 14.4–402, 14.12–231
Australian Antarctic Territory, 14.2–61
Axel Heiberg Glacier, 14.9–456
Base General Belgrano, 14.11–199
Cape Hallett, 14.9–657
Filchner Ice Shelf, 14.7–376, 14.12–38
Hallett Station, 14.5–232
Halley Bay, 14.3–4, 14.7–41, 14.7–238
Hut Point Peninsula, 14.11–731
Koettlitz Glacier, 14.8–430
Little America III, 14.11–429
Little America V, 14.5–423, 14.11–708
Lützow-Holm Bay, 14.10–317
MacRobertson Land, 14.2–64, 14.5–427, 14.6–486
McMurdo, 14J–173
McMurdo Sound, 14.2–358, 14.2–681, 14.5–38, 14.7–362, 14.8–381, 14.8–437, 14.9–51, 14.9–358, 14.11–362
Mawson, 14.11–163
Mirny, 14.1–25, 14.3–288, 14.8–267, 14.9–318, 14.10–674, 14J–90
Ongul Island, 14.6–481
Palmer Peninsula, 14.3–54
Pravda Coast, 14.9–50
Queen Maud Land (Dronning Maud Land), 14.9–759, 14.10–712
  Base Roi Baudouin, 14.3–56, 14.10–47
  Nunatak, 14.3–405
  Western Dronning Maud Land, 14.3–406
Ross Ice Shelf, 14.4–49, 14.5–693, 14.6–63, 14.11–430, 14.11–432
Scott Base, 14.3–232, 14.5–297, 14.5–298, 14.6–342
South Pole, 14.3–274
Soviet Antarctic, 14.2–183
Syowa Base, 14.5–255, 14.5–256, 14.8–193, 14.8–293, 14.8–431, 14.9–258, 14.9–263, 14.9–264, 14.9–295, 14.9–332, 14.11–194, 14J–87, 14J–119
Victoria Land, 14.2–65, 14.3–414, 14.3–415, 14.5–316, 14.7–262, 14.11–42
  Lake Bonney, 14.6
  516
  Lake Vanda, 14.6
  516, 14.10–49
  Southern Victor
  Land, 14.8–430
  Taylor Valley, 14.9
  339
Vostok, 14.1–107, 14.2
225, 14.2–236, 14.4
45
Wilkes Land, 14.9–53
Wilkes Station, 14.9
443
Windmill Islands, 14.3
66
Wright Valley, 14.12
252
Falkland Islands, 14.7–22
Southern Ocean, 14.5–34

**Zeitschrift für Aerosol-Forschung und Therapie,** [Stuttgart], 14.7–711

**Zeitschrift für Angewandte Meteorologie,** [Berlin], 14L–38

**Zeitschrift für Astrophysik,** [Berlin], 14.2–134, 14.2–176, 14.2–178, 14.3–169, 14.3–174, 14.3–194, 14.3–200, 14.4–161, 14.4–166, 14.4–172, 14.4–196, 14.5–172, 14.5–212, 14.6–142, 14.6–153, 14.6–186, 14.6–206, 14.6–210, 14.6–232, 14.7–138, 14.7–142, 14.7–166, 14.7–167, 14.7–174, 14.8–186, 14.9–235, 14.9–252, 14.10–9, 14.11–182

**Zeitschrift für Geomorphologie,** [Berlin], 14.5–448

**Zeitschrift für Geophysik,** [Würzburg], 14.4–396, 14L–54, 14L–59, 14L–80, 14L–85

**Zeitschrift für Gletscherkunde und Glazialgeologie,** [Innsbruck], 14.2–371, 14.5–429

**Zeitschrift für Instrumentenkunde,** [Brunswick], 14.7–504, 14.10–502

**Zeitschrift für Meteorologie,** [Berlin], 14.1–288, 14.1–301, 14.1–302, 14.1–308, 14.1–358, 14.1–422, 14.3–577, 14.3–580, 14.3–653, 14.4–600, 14.5–593, 14.6–290, 14.6–613, 14.6–641, 14.6–655, 14.6–810, 14.7–63, 14.7–510, 14.7–638, 14.7–707, 14.7–737, 14.7–740, 14.8–721, 14.9–459, 14.9–581, 14.9–627, 14.9–636, 14.9–728, 14.10–42, 14.11–111, 14.11–556, 14.11–573, 14.11–785, 14.12–69, 14.12–78, 14.12–345, 14.12–576, 14A–212

**Zeitschrift für Naturforschung, Ser. B,** [Tübingen], 14A–219

**Zeitschrift für Pflanzenernährung, Düngung, Bodenkunde,** [Weinheim], 14.12–326

**Zhurnal Eksperimental'noĭ i Teoreticheskoĭ Fiziki,** [Moscow], 14.2–219, 14.3–219, 14.8–727, 14J–8, 14J–26, 14J–115, 14J–168, 14J–174, 14J–230, 14K–3, 14K–15 to –17, 14K–41, 14K–96, 14K–106, 14K–157, 14K–194, 14K–197, 14K–198, 14L–189

**Zhurnal Tekhnicheskoĭ Fiziki,** [Moscow], 14I–111

*Zürich. Eidgenössische Sternwarte,* **Astronomische Mitteilungen,** 14.4–195

*Zürich. Eidgenössische Sternwarte,* **Publikationen,** 14.12–105

# SELECT LIST OF PERIODICALS

**Note:** This list contains the titles of the periodicals which regularly contain material on meteorology or geophysics and it comprises only a small percentage of the periodicals from which pertinent articles are abstracted. The form of serial entry adopted is given in bold face type below.

**Acta Geophysica Polonica,** [Warsaw].
**Akademiia Nauk SSSR, Izvestiia, Ser. Geog.** and **Ser. Geofiz.,** [Moscow].
**American Geophysical Union, Transactions,** [Washington].
**American Meteorological Society, Bulletin,** [Boston].
**Angewandte Meteorologie** [Potsdam].
**Annales de Géophysique,** Centre National de la Recherche Scientifique, [Paris].
**Archiv für Meteorologie, Geophysik und Bioklimatologie, Ser. A and Ser. B,** [Vienna].
**Australian Journal of Physics,** [Melbourne].
**Australian Meteorological Magazine,** [Melbourne].
**Beiträge zur Geophysik,** [Leipzig].
**Beiträge zur Physik der Atmosphäre,** [Frankfurt a. Main].
**Canadian Journal of Physics,** [Ottawa].
**Ciel et Terre,** Société Belge d'Astronomie, Météorologie et Physique du Globe, [Brussels].
**Geofisica e Meteorologia,** Società Italiana di Geofisica, [Genoa].
**Geofisica Pura e Applicata,** Istituto Geofisico Italiano, [Milan].
**Geograficheskoe Obshchestvo, SSSR, Izvestiia,** [Leningrad].
**Geophysical Magazine,** Japan Meteorological Agency, [Tokyo].
**Hemel en Dampkring,** [The Hague].
**Időjárás,** Magyar Meteorológiai Társaság and Országos Meteorológiai Intézet, [Budapest].
**Indian Journal of Meteorology and Geophysics,** [Delhi].
**Journal de Mécanique et de Physique de l'Atmosphère,** Société Météorologique de France
**Journal of Applied Meteorology,** [Boston].
**Journal of Atmospheric and Terrestrial Physics,** [London].
**Journal of Geophysical Research,** [Washington].
**Journal of Glaciology,** [Cambridge, Eng.]
**Journal of Marine Research,** [New Haven].
**Journal of Meteorological Research,** [Tokyo].
**Journal of the Atmospheric Sciences,** American Meteorological Society, [Boston].
**The Marine Observer,** Air Ministry, Meteorological Office, London.
**The Meteorological Magazine,** Air Ministry, Meteorological Office, London.
**Meteorological Society of Japan, Journal,** [Tokyo].
**Meteorologické Zprávy,** [Prague].
**La Météorologie,** Société Météorologique de France, [Paris].
**Meteorologiia i Gidrologiia,** [Leningrad].
**Meteorologische Rundschau,** [Berlin].
**Monthly Weather Review,** U. S. Weather Bureau, Washington, D. C.
**Planetary and Space Science,** [Oxford].
**Polarforschung,** Archiv für Polarforschung, [Kiel].
**Przegląd Geofizyczny,** [Warsaw].
**Revista de Geofísica,** Instituto Nacional de Geofisica, [Madrid].
**Rivista di Meteorologia Aeronautica,** Servizio Meteorologico, [Rome].
**Royal Meteorological Society, Quarterly Journal,** [London].
**South Africa. Weather Bureau, Notos,** [Pretoria].
**Tellus,** Svenska Geofysiska Föreningen, Stockholm.
**Weather,** Royal Meteorological Society, [London].
**Weatherwise,** American Meteorological Society, [Boston].
**Wetter und Leben,** Österreichische Gesellschaft für Meteorologie, [Vienna].
**WMO Bulletin,** World Meteorological Organization, [Geneva].
**Zeitschrift für Meteorologie,** Meteorologisches Observatorium, Potsdam.

# TABLE OF CONTENTS

Meteorological Abstracts and Bibliography. Volume 14, Indexes, Jan.–Dec. 1963

Errata ........ ii–iv

## CUMULATIVE INDEXES

CUMULATIVE AUTHOR INDEX ........ 4067
List of authors with titles of articles and number of entry

INDEX OF TRANSLATIONS ........ 4610

CUMULATIVE SUBJECT INDEX ........ 4647
List of subjects with authors and number of entry

CUMULATIVE GEOGRAPHIC INDEX ........ 4933
List of geographic places used as subjects and number of entry

INDEX OF SERIALS FROM WHICH ABSTRACTS OR ENTRIES HAVE BEEN MADE ........ 4957

LIST OF PERIODICALS REGULARLY ABSTRACTED ........ Cover 3
